

EU Road Safety Exchange

Twelve countries working together to improve road safety

Sharing Knowledge, Saving Lives Session

Theodora Calinescu, Project Manager

**EU ROAD SAFETY
EXCHANGE**

Vision Zero for the Balkans
June 1 – 2, 2022

What is the EU Road Safety Exchange?

A three-year twinning project (2019-2021) funded by the European Parliament and managed by the European Transport Safety Council on behalf of the European Commission

Supports real exchange of knowledge and best practice between EU Member States

The primary target audience are decision-makers and road safety professionals working in the authorities of the selected countries

What is the EU Road Safety Exchange?

Twelve participating Member States: Austria, Bulgaria, France, Greece, Ireland, Lithuania, the Netherlands, Poland, Portugal, Romania, Spain and Sweden

Activities included thematic online workshops, on-the-ground study visits, bilateral follow-up and a final event in Brussels.

Kickoff – 2019

Six meetings between March and July 2020 with high level representatives to establish priority topics and twinning partners

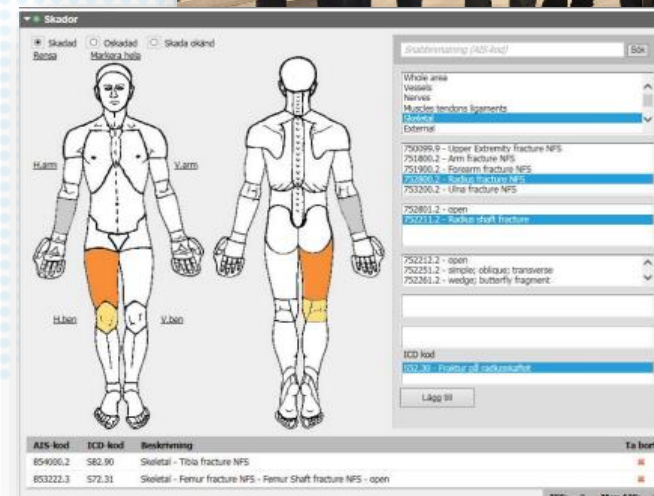

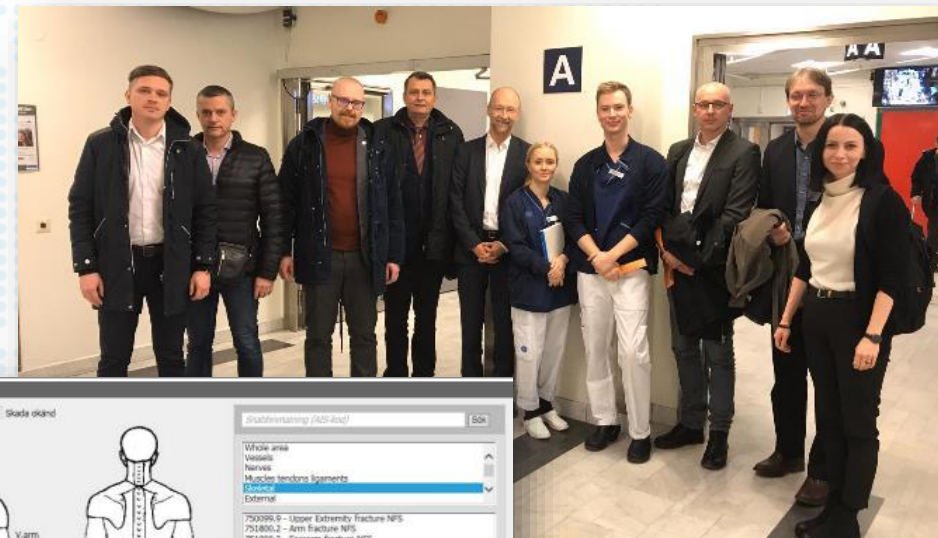

Vision Zero for the Balkans
June 1 – 2, 2022

Thematic Workshops (Online)

Achievements

- Renewed focus on the most compelling problems of road safety
- Provided national experts with a whole range of new solutions based on international good practice
- Established a network of road safety professionals engaging in continuous exchanges and closer partnerships between Member States
- Concrete benefits i.e. legislative advances; contribution to the development of national road safety plans for the upcoming decade.
- A great basis for future cooperation

Thank you!
