# Cyprus Road Safety Programme (CRSP)

- CRSP, a technical assistance Programme, was formulated under the umbrella of Safer Transport Platform (EIB & EC).
- EIB (Europ. Investment Advisory Hub) assigned a Service Contract. Period: Jan. 2021-April 2022.
- ***Main Elements of the Programme:***
  - Prepare Cyprus to meet the requirements of the RISM Directive.
  - Road Safety Inspections & Safety ratings for a sample of road network/sections.
  - A Programme to implement the Safe System approach by 2030.
  - Road safety infrastructure investment programme on national roads.
  - Training Components.

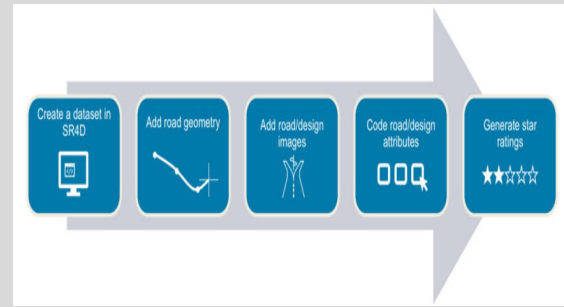

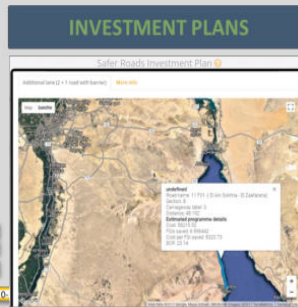

MINISTRY OF  
**TRANSPORT, COMMUNICATIONS AND WORKS**  
Republic of Cyprus

# Risk Maps, Road Safety Inspections & Safety ratings

- Road Networks under assessment with EuroRAP methodologies:
  - 147.3 KMs of existing roads: a mixture of motorways, rural primary roads and urban primary roads (last mile transition network).
  - 66 KMs of road designs (either under construction or planned): a mixture of motorways, rural primary roads with urban characteristics.
- A Programme to implement the Safe System approach by 2030.

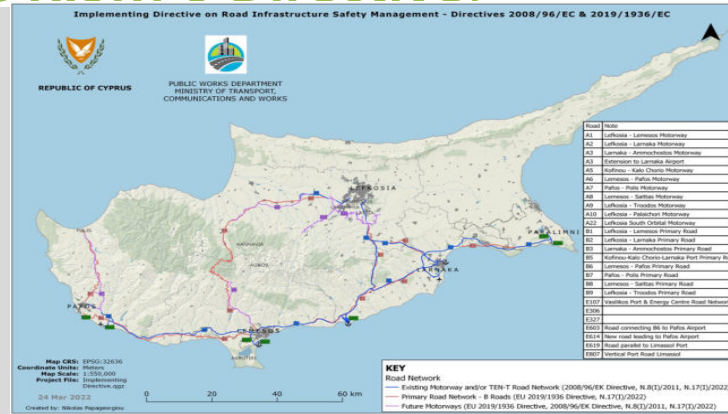

MINISTRY OF  
**TRANSPORT, COMMUNICATIONS AND WORKS**  
Republic of Cyprus

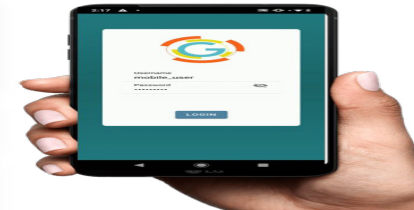

# Safer Road Infrastructure - Actions for implementation the RISM o Directive:

- Already identify the National Network where the Directive will be applied (Article 1).
- Revision of the National Guidelines (Article 8).
- Network-Wide RS Assessments (Article 5 & 6).
- Training actions (Article 9).
- Mobile App: Citizens will identify issues & problems in the road network (Art. 6e).
